

Recent graduates from Dallas Theological Seminary, Blaine & Abigail have been involved in a variety of ministries and have been on several mission trips. Blaine has served as a youth pastor in St. Helens and spent a year working with college students in Slovenia. Abigail helped start a ministry in San Antonio developing friendships with women from Iran and other countries from that area in the world. It is their desire to make disciples and start churches in France. Currently they are residents of St. Helens and have two children, Judah and Levi. They are still in the process of gaining the necessary support to go to France.

*"Sharing the Gospel
in France"*

On a May afternoon in 1943, 50 concerned Christian leaders met to pray and discuss how they could proclaim the truth of the Scriptures and the self-sacrificing love of Christ. Seven months later the Conservative Baptist Foreign Mission society was born. In time, the organization came to be known as CBInternational, and now, WorldVenture. Today, with more than 500 missionaries in more than 60 areas of the world, WorldVenture is still expanding the harvest, taking the love of God to the nations. It is their vision to see people of all nations transformed by Jesus Christ through partnership with His church.
